EPILEPSY RESEARCH

Author Index Volume 21 (1995)

Ahern, G.L., see Weinand, M.E. (21) 221
Alexander, L.J., see Tröster, A.I. (21) 19
Anderson, V.E., see Gil-Nagel, A. (21) 27

Babb, T.L., see Mathern, G.W. (21) 133
Barr, W.B., see Tröster, A.I. (21) 19
Ben-Menachem, E., Söderfelt, B., Hamberger, A., Hedner, T. and Persson, L.I.
Seizure frequency and CSF parameters in a double-blind placebo controlled trial of gabapentin in patients with intractable complex partial seizures (21) 231
Benardo, L.S., see Valenzuela, V. (21) 195
Bernard, C. and Wheal, H.V.
Plasticity of AMPA and NMDA receptor-mediated epileptiform activity in a chronic model of temporal lobe epilepsy (21) 95
Bernus, I., Hooper, W.D., Dickinson, R.G. and Eadie, M.J.
Metabolism of carbamazepine and co-administered anticonvulsants during pregnancy (21) 65
Blezer, E.H.M., see Coenen, A.M.L. (21) 89

Cain, D.P., see Dennison, Z. (21) 171
Cameron, H. and Macphee, G.J.A.
Anticonvulsant therapy in the elderly—A need for placebo controlled trials (21) 149
Carter, L.P., see Weinand, M.E. (21) 221
Chadwick, D.W., see Richens, A. (21) 37
Coenen, A.M.L., Blezer, E.H.M. and Van Luijtelaar, E.L.J.M.
Effects of the GABA-uptake inhibitor tiagabine on electroencephalogram, spike-wave discharges and behaviour of rats (21) 89
Corcoran, M.E., see Kirkby, R.D. (21) 115
Costa, D.C., see Schmitz, E.B. (21) 159

Dam, M., see Richens, A. (21) 37
Dennison, Z., Teskey, G.C. and Cain, D.P.
Persistence of kindling: Effect of partial kindling, retention interval, kindling site, and stimulation parameters (21) 171
Dickinson, R.G., see Bernus, I. (21) 65
Doesburg, W.H., see Lamers, K.J.B. (21) 59
Duncan, J.S., see Richens, A. (21) 37
Duncan, J.S., see Schmitz, E.B. (21) 159

Eadie, M.J., see Bernus, I. (21) 65
El-Saadany, W., see Weinand, M.E. (21) 221
Ell, P.J., see Schmitz, E.B. (21) 159

Fujii, M., see Sugiyama, S. (21) 1

Gabreëls, F.J.M., see Lamers, K.J.B. (21) 59
Gil-Nagel, A., Wilcox, K.J., Stewart, J.M., Anderson, V.E., Leppik, I.E. and Rich, S.S.
Familial cerebral cavernous angioma: Clinical analysis of a family and phenotypic classification (21) 27
Gilbert, T.H., see Kirkby, R.D. (21) 115
Gilmore, R.L., see Roper, S.N. (21) 205
Gram, L., see Richens, A. (21) 37

Hamberger, A., see Ben-Menachem, E. (21) 231
Hart, Y.M. and Shorvon, S.D.
The nature of epilepsy in the general population. I. Characteristics of patients receiving medication for epilepsy (21) 43
Hart, Y.M. and Shorvon, S.D.
The nature of epilepsy in the general population. II. Medical care (21) 51
Healy, B., Peck, J. and Healy, M.R.
The effect of amygdaloid kindling on heart period and heart period variability (21) 109
Healy, M.R., see Healy, B. (21) 109

Hedner, T., see Ben-Menachem, E. (21) 231
Hooper, W.D., see Bernus, I. (21) 65
Houser, C.R., see Roper, S.N. (21) 205
Hudzik, T.J. and Palmer, G.C.
Effects of anticonvulsants in a novel operant learning paradigm in rats: Comparison of remacemide hydrochloride and FPL 15896AR to other anticonvulsant agents (21) 183
Hutzler, R., see Weinand, M.E. (21) 221

Ito, H., see Sugiyama, S. (21) 1

Jackson, G.D., see Schmitz, E.B. (21) 159
Jacoby, A.
Impact of epilepsy on employment status: Findings from a UK study of people with well-controlled epilepsy (21) 125

Kirkby, R.D., Gilbert, T.H., Westcott, M.C. and Corcoran, M.E.
Further characterization of kindling antagonism (21) 115
Kuroda, S., see Shimizu, Y. (21) 11

Labiner, D.M., see Weinand, M.E. (21) 221
Lamers, K.J.B., Gabreëls, F.J.M., Renier, W.O., Wevers, R.A. and Doesburg, W.H.
Fasting studies in cerebrospinal fluid and blood in children with epilepsy of unknown origin (21) 59
Leppik, I.E., see Gil-Nagel, A. (21) 27
Lévesque, M.F., see Mathern, G.W. (21) 133

Macphee, G.J.A., see Cameron, H. (21) 149
Mathern, G.W., Babb, T.L., Pretorius, J.K., Melendez, M. and Lévesque, M.F.
The pathophysiologic relationships between lesion pathology, intracranial ictal EEG onsets, and hippocampal neuron losses in temporal lobe epilepsy (21) 133
McKelvy, J.F., see Richens, A. (21) 37
Melendez, M., see Mathern, G.W. (21) 133
Mengel, H., see Richens, A. (21) 37
Mikkelsen, M., see Richens, A. (21) 37
Mori, A., see Shimizu, Y. (21) 11
Moriarty, J., see Schmitz, E.B. (21) 159
Morimoto, K., see Shimizu, Y. (21) 11
Morrow, J., see Richens, A. (21) 37

Oommen, K.J., see Weinand, M.E. (21) 221
Osorio, I., see Tröster, A.I. (21) 19

Palmer, G.C., see Hudzik, T.J. (21) 183
Paolo, A.M., see Tröster, A.I. (21) 19
Peck, J., see Healy, B. (21) 109
Persson, L.I., see Ben-Menachem, E. (21) 231
Pierce, M.W., see Richens, A. (21) 37
Pretorius, J.K., see Mathern, G.W. (21) 133

Renier, W.O., see Lamers, K.J.B. (21) 59
Rich, S.S., see Gil-Nagel, A. (21) 27
Richens, A., Chadwick, D.W., Duncan, J.S., Dam, M., Gram, L., Mikkelsen, M., Morrow, J., Mengel, H., Shu, V., McKelvy, J.F. and Pierce, M.W.
Adjunctive treatment of partial seizures with tiagabine: A placebo-controlled trial (21) 37
Roper, S.N., Gilmore, R.L. and Houser, C.R.
Experimentally induced disorders of neuronal migration produce an increased propensity for electrographic seizures in rats (21) 205

Schmitz, E.B., Costa, D.C., Jackson, G.D., Moriarty, J., Duncan, J.S., Trimble, M.R. and Ell, P.J.
Optimised interictal HMPAO-SPECT in the evaluation of partial epilepsies (21) 159
Shimizu, Y., Morimoto, K., Kuroda, S. and Mori, A.
Sustained increase of methylguanidine in rats after amygdala or hippocampal kindling (21) 11
Shorvon, S.D., see Hart, Y.M. (21) 43
Shorvon, S.D., see Hart, Y.M. (21) 51
Shu, V., see Richens, A. (21) 37
Söderfelt, B., see Ben-Menachem, E. (21) 231
Stewart, J.M., see Gil-Nagel, A. (21) 27
Sugiyama, S., Fujii, M. and Ito, H.
The electrophysiological effects of multiple subpial transection (MST) in an experimental model of epilepsy induced by cortical stimulation (21) 1
Suzdak, P.D., see Thomsen, C. (21) 79

Talwar, D., see Weinand, M.E. (21) 221
Teskey, G.C., see Dennison, Z. (21) 171
Thomsen, C. and Suzdak, P.D.
Effects of chronic tiagabine treatment on [^{3}H]-$GABA_A$, [^{3}H]$GABA_B$ and [^{3}H]tiagabine binding to sections from mice brain (21) 79
Trimble, M.R., see Schmitz, E.B. (21) 159
Tröster, A.I., Warmflash, V., Osorio, I., Paolo, A.M., Alexander, L.J. and Barr, W.B.
The roles of semantic networks and search efficiency in verbal fluency performance in intractable temporal lobe epilepsy (21) 19

Valenzuela, V. and Benardo, L.S.
An in vitro model of persistent epileptiform activity in neocortex (21) 195
Van Luijtelaar, E.L.J.M., see Coenen, A.M.L. (21) 89

Warmflash, V., see Tröster, A.I. (21) 19
Weinand, M.E., Carter, L.P., Oommen, K.J., Hutzler, R., Labiner, D.M., Talwar, D., El-Saadany, W. and Ahern, G.L.
Response of human epileptic temporal lobe cortical blood flow to hyperventilation (21) 221
Westcott, M.C., see Kirkby, R.D. (21) 115
Wevers, R.A., see Lamers, K.J.B. (21) 59
Wheal, H.V., see Bernard, C. (21) 95
Wilcox, K.J., see Gil-Nagel, A. (21) 27
Wong, I.C.K.
Retrospective study of vigabatrin and psychiatric behavioural disturbances (21) 227
